Harrisburg, PA 17110-8200

RE: Creswell Landfill GCMP; BWM Permit #100008

Dear Mr. Rawski:

Submitted herein is the data associated with the Gas Control and Monitoring Plan (GCMP) for the above referenced facility for the 2<sup>nd</sup> Quarter 2013.

Attached, and included by reference are the following:

- **Attachment A**

Five (5) sheets containing a total of eleven (11) charts which depict historic results for the peripheral landfill gas monitoring wells and probes. As indicated, our efforts at reducing methane levels in the perimeter probes are, generally producing favorable results. We will continue to monitor these locations and, in conjunction with our consultant (SCS Engineers) will evaluate the need for additional measures should further actions be required.

- **Attachment B**

Contains quarterly results of the site perimeter locations monitored for percent L.E.L. Note the form has been revised to include the locations deleted or added as part of the Soil Borrow Project.

Creswell Landfill GCMP; BWM Permit #100008

July 24, 2013

Page 2 of 2

In summary:

**Field Data**

- Samples taken from wells were analyzed for methane, carbon dioxide, oxygen, and "balance" (usually inferred to mean nitrogen) gases. "Balance" results, as always, are reported as a calculation based upon the measured values of the three (3) other landfill gas constituents.

We will continue quarterly GCMP monitoring and reporting with our next monitoring event (3<sup>rd</sup> Quarter 2013) currently scheduled to be completed through September. Feel free to call if you have any questions or comments.

Sincerely,

A handwritten signature in black ink that reads "Brooks K. Norris". The signature is written in a cursive style.
