

Project Engineer

Lancaster County Solid Waste Management Authority (LCSWMA) manages the municipal solid waste and recyclable materials from Lancaster County, Pennsylvania homes and businesses, as well as refuse for the City of Harrisburg and surrounding Dauphin County communities. Once the waste is delivered by private haulers, LCSWMA employs a multi-step approach to trash disposal and processing, called an Integrated System. This Integrated System not only saves significant landfill capacity, it also creates clean, renewable energy (electricity).

We are currently looking for qualified candidates for the full-time position of Project Engineer. This position is responsible for overseeing the planning, design, and construction and maintenance of all LCSWMA facilities. The Project Engineer researches and analyzes construction drawings, specifications, as-built documentation, maps, photos, etc. to gather information and present reports on project initiatives.

The ideal candidate will possess the following:

- Bachelor's Degree in Civil Engineering or related field
- Minimum of 5 years of design and construction oversight experience
- State of Pennsylvania Professional Engineers License, or the ability to obtain PE license within one year of beginning employment.
- Strong computer skills: Word, Excel, Email
- Strong communication and relationship development skills
- Valid PA Driver's License
- AutoCAD experience is a plus
- Solid Waste Industry experience is a plus

Salary commensurate with education and experience. LCSWMA offers an excellent, comprehensive benefits package and is an equal opportunity employer.
