RE: Frey Farm Landfill; Landfill Gas Monitoring; BWM Permit #101389
2nd Quarter 2018 Perimeter %LEL LFG Report

Dear Mr. Rawski:

In accordance with the Municipal Waste Management Regulations (§273.292 – “Gas Control and Monitoring”), the Lancaster County Solid Waste Management Authority (LCSWMA) continues quarterly monitoring of methane gas levels at the perimeter of the above referenced facility.

LCSWMA personnel completed monitoring of sample points along the facility boundary and in adjacent buildings and structures on June 28, 2018. The results of that monitoring are attached. No sampled peripheral locations, structures or landfill gas monitoring probes (sampled 4/13/18) were found to contain methane, while two (2) manholes, internal to the landfill, was found to contain methane.

Please do not hesitate in contacting me at mreider@lcswma.org, if you have any questions or concerns.

Respectfully Submitted,

Mark D. Reider
Director of Environmental Compliance
