**Important Notes**

The Lancaster County Solid Waste Management Authority (LCSWMA) assembled this list of markets as a guideline to those interested in marketing recyclable materials and properly disposing of potentially hazardous materials. This list is based on best available information at the time. Other markets may be available. LCSWMA does not endorse any of the companies/individuals listed or services offered.

Before any material is shipped to these markets, LCSWMA encourages the generator/hauler to first contact the market to ensure that the material is acceptable. As markets change, the materials handled, and quantity/quality requirements may change.

LCSWMA should be notified of any errors, omissions, and updates.
